

The World's Finest and Most Natural Range of Emu Oil Products

Fact Sheet – Skin Conditions

Skin conditions are prevalent in many different forms that can cause itchiness, redness, pain and sometimes embarrassment for the person suffering from the condition. An estimated one million people in Australia suffer from psoriasis alone. Emu Oil, a natural Australian treatment has been used by the Aborigines for thousands of years and can provide relief of the following conditions....

Eczema	Psoriasis	Dermatitis
Acne	Dry Skin	Rashes
Dandruff	Nappy Rash	Skin Allergies

How Emu Tracks can benefit your skin condition...

Moisturise

Seal in moisture with emu oil's unique ability to penetrate the skin and provide essential moisture to repair and hydrate dry skin. Emu oil is non-comedogenic meaning it will not clog the pores so your skin is able to breathe.

Reduce Inflammation

Superior anti-inflammatory properties reduce inflammation, redness and itchiness and significantly reduce the severity of problem areas and help to prevent flare ups.

Prevent Flare Ups

Regular use of emu oil will keep skin moisturised and prevent itching. The hypo-allergenic nature of emu oil and the natural focus of Emu Tracks range of skin care products ensure no adverse reactions.

Boost the Immune System

Eczema, dermatitis and psoriasis can weaken the immune system. Emu oil can strengthen the immune system and contains Essential Fatty Acids, Omegas 3, 6 and 9, as well as Vitamins A, E and F. A deficiency in EFA's can result in psoriasis, eczema, dermatitis, dandruff and many other problems.

Relieve Joint Pain

Psoriasis can be associated with joint problems, most notably psoriatic arthritis - an inflammation of the joints. Emu oil's anti-inflammatory properties and ability to penetrate the skin provides relief directly to the affected joints.

Regenerate Skin Tissue

Emu oil can promote the regeneration of skin tissue, as it increases the rate of proliferation of fibroblasts, the main skin cells in tissue culture. Omega 3 and 6 are necessary to maintain healthy skin and are essential to help the skin repair itself. Emu oil is much more effective because it not only treats the top layer of the skin but penetrates deep within the dermis to create stronger, healthier skin.

Reduce Scarring

Reduce scarring associated with acne, burns and other skin conditions and accelerate the healing process with emu oil.

The World's Finest and Most Natural Range of Emu Oil Products

Minimize Acne

Emu oil's anti-inflammatory properties reduce redness and inflammation and provide clearer, smoother skin. It is non-comedogenic so it won't clog the pores, instead it allows your skin to breathe. Emu oil penetrates the skin so it leaves no oily residue or greasy appearance. It is hypo-allergenic so won't cause any adverse reactions and is also anti-bacterial so it can naturally fight the bacteria that cause pimples and acne. Emu oil also reduces scarring.

Emu Tracks Skin Care Range

In addition to using pure emu oil or taking emu oil capsules to treat the problem internally, those suffering from skin conditions can also greatly improve their condition by introducing the Emu Tracks range into their household and avoiding harsh soaps that irritate the skin and moisturisers that simply sit on the skin's surface.

Emu Tracks is dedicated to producing the world's finest and most natural range of emu oil products. This dedication has resulted in a high quality range of skin care products that contain natural ingredients which are hypo-allergenic and highly moisturising. Emu Tracks offers shampoo and conditioner, moisturiser, lip balm, hydrating lotion, massage oils, and other great products. All products are safe and gentle enough for the whole family to use.

Safe, Natural and Effective

While there is no recognised cure for eczema, dermatitis or psoriasis, emu oil offers a safe, natural and effective way to manage its symptoms and provide necessary relief from dry, inflamed, itchy skin. For best results, apply emu oil regularly
